GEES

## GEES Subject Centre

**Resources**  
 The GEESS Subject Centre Resource Database brings together high quality resources for higher education learning and teaching in the Subject Centre disciplines. It includes information on case studies of good practice, tutorials and CDs.

**Publications**  
 The GEESS Subject Centre produces the bi-annual publication *Planet*, containing articles on learning & teaching, resource information, and news of interest to staff and students in the GEESS disciplines in higher education. Other publications include Learning and Teaching Guides, Resource Briefings and regular newsletters.

**Events**  
 The GEESS Subject Centre organises a wide range of events and collaborates with other organisations to provide: national conferences, departmental workshops, seminars for new lecturers, and support events for project grant holders.

The Subject Centre for Geography, Earth and Environmental Sciences (GEESS) is part of the national network of the Higher Education Academy, an independent organisation for the UK higher education sector. The GEESS Subject Centre aims to improve the learning and teaching experiences of everyone in these disciplines in UK and is a national and international hub in the exchange of knowledge on learning and teaching across the three subjects. It provides a voice for these communities, contributing to government consultations and policy developments. The Centre has a UK-wide brief and this is reflected in the locations of its activities which include:

**Contact us:**

News and information about GEESS Subject Centre activities can be received through signing up to the regular announcement list at: <http://www.jiscmail.ac.uk/lists/GEESS.html>

**Research and Development**  
 The GEESS Subject Centre has an ongoing programme of support for pedagogic research and development projects. Funds have been awarded for research into topics including employability, virtual-learning environments, fieldwork, and postgraduate teaching.

**Enquiry Service**  
 The enquiry service is open to all GEESS staff in higher education and deals with a wide range of queries throughout the year on teaching and learning.

GEES Learning and Teaching Guide

# Assessment in the Earth Sciences, Environmental Sciences and Environmental Studies

Peter Hughes<sup>1</sup> and Alan Boyle<sup>2</sup>

<sup>1</sup> School of Lifelong Education and Development, University of Bradford.  
<sup>2</sup> Earth & Ocean Sciences, University of Liverpool.

Funded by the Higher Education Academy Subject Centre for Geography, Earth and Environmental Sciences (GEESS)
